

Name

Tianxu Yang

How did you hear about the DASB Senate?

Flyers

If you have held a DASB Senate position in the past, what was your position?**Why do you want to join the DASB Senate, and what do you hope to achieve?**

I want to become a part of the school most influential student group, to:

1. Find marginalized students and address students needs
2. Champion the voices of marginalized students
3. Increase the student engagement on campus and developing a program to help students transit their academic life from online to in-person more smoothly
4. Bring the attention to the master facility plan of our new school gym, and for the time at FHDA history to make the gym open to everyone on campus.
5. Coordinating with other senators and become an active member of the DASG family who can bring positivities and values to the group and to contribute to the achievement of our team.

What are some of the skills and experiences that you will bring to the DASB Senate?

I have had experiences working with different clubs at De Anza college. I have done projects with Women in Computer Science, and I have become the student coordinator of CSSA, one of the biggest clubs here at De Anza College for a year.

I got to practice many soft skills from my club experience, like public speaking, group communication, and many others. Coming to the DASG office, I will carry enthusiasm and passion with me, bringing positivity and encouragement to the family!

What other commitments do you have and how will you manage your time?

Other than running for the senator position, I am also managing two of my clubs. Luckily, I do not have a heavy course load this quarter. My time is very flexible.

Right now I am still developing my time management system. I am learning how to utilize technology, like online apps, to help my time management. Besides, I am also working on myself which helps my time management in the long term. For instance, pursuing a fitness goal, learning meditation and mood regulation, creating and joining support communities, etc.

Additional Comments (maximum 200 words)

Regardless of my election results, I would still like to learn more about the current DASG team and accomplish some meaningful goals with you guys together in the future.

What student concerns do you feel the DASB should address?

Mental burnout and poor time management.

We need to do more than just repeat the importance of mental health, and stop giving suggestions at a very surface level. Instead, we need to collaborate with the school Psychology team to pinpoint the most common concerns of mental breakdowns and to sophisticate the solutions that are accessible to every student.
