

De Anza College
Geology 10 GEOL-010.-62 CRN 00934
Spring 2017
Instructor: John Cook
Email: geojcook@comcast.net

NOTE: This syllabus is subject to change.

TTh Lecture S-15 6:00-7:50, lab S15 8:00-9:15
Office hours: 5:30 – 5:55p TTh room S-15 or S-14(back room)
10:00-10:50am W by email

Topics to be covered:

Week

1 Intro to geoscience, fundamental tectonics
2 Chemistry, structure, and identification of minerals
3 Plutonic igneous rocks and intrusions
EXAM # 1 (100 points) 4-27-17: Study q's # 1, 2, 3

4 Volcanic Processes and Volcanic Rocks
Weathering, Erosion and Sedimentary Rocks
5 Metamorphic Rocks
Geologic time
6 Structural Geology
EXAM # 2 (100 points) 5-18-17: Study q's # 4, 5, 6, 7

7 Structural Geology
Earthquakes
8 Plate Tectonics
Deserts
9 **EXAM # 3 (100 points) 6-6-17: Study q's # 8, 9, 11, 12**

Mass Movements
10 Streams and Floods
Groundwater
11 Glaciers
Coastal Processes
12 **MANDATORY FINAL EXAM 6-27-17: Study q's # 13, 14, 15, 16, 17**
(Comprehensive - 150 points) Tuesday June 27th - 6:15-7:45 p.m. BRING TWO SCANTRONS

REQUIRED Materials (Course Reader is available only at the DeAnza bookstore):

Course Reader: GEOL-010.-61/62 Notes, Study Questions, Lab Exercises, Geo Diagrams – COOK

****Bring your course reader to class every day****

Equipment: mechanical or regular pencil and a good eraser (I recommend the Pentel “stick”), 4 colored pencils (contrasting colors – red, green, blue, yellow), simple/basic calculator

Scantrons will be used for all exams – **please purchase 5 – FORM NO. 882-E (green) NO SUBSTITUTIONS!**

Recommended Materials

Textbook: Geology, 4th edition, 2007 (Chernicoff and Whitney, paperback), ISBN 0-13-147464-2

Geology, 3rd edition, 2002 (Chernicoff and Whitney, paperback), ISBN 0-61-811815-2

MANDATORY FIELD TRIP REQUIREMENT:

SATURDAY, June 3rd

Failure to attend will result in an **incomplete** for the course!!! The trip lasts from **8:30a-2:30p.**

Attendance Policy [this policy *will be* enforced]

Regular attendance is a course requirement. Class will begin **promptly** at 6p.

ATTENTION Students who stop attending class – It is YOUR responsibility to drop the course, otherwise you will receive the grade you earn. The college strictly enforces all academic deadlines.

***Last Day to drop with a W is Friday June 2nd**

Grading: 600 total points for the course:	3 "hour" exams @ 100 points each	grading scale:
	1 Final exam @ 150 points	90-100 A
	1 field trip report @ 50 points	80-89 B
	22 labs @ 4 points each + 12	65-79 C
	(3 double-point labs)	55-64 D
		<55 F

*5 lab quizzes will total a possible 100 points. Your total quiz score may be used to replace your lowest regular exam score.

**I do not return quizzes – you must come to office hours to see your graded work.

Geology 10 Spring 2017 Tentative Schedule for Lecture and Lab

Lecture Topic	Date	Lab Exercise
Geosciences	4-11-17	1A – Crystal Properties
Basic Chem.	4-13-17	1C, D Lattice Structures
Crystals	4-18-17	Minerals
Silicates	4-20-17 <i>crystals</i>	Minerals continued
Igneous Processes	4-25-17	Rock Textures
EXAM # 1	4-27-17	<i>Rocks that Originate Underground</i>
Volcanism	5-2-17	Igneous Rocks
Sedimentary	5-4-17 <i>texture</i>	Sedimentary Rocks, Topo Maps HW (pgs 93-96 – read pages 89-92)
Metamorphic	5-9-17	Topo Maps cont, Metamorphic Rocks
Geo Time	5-11-17 <i>Topo maps</i>	Sequence of Events
Structure	5-16-17	Strike/Dip/Block Diagrams/Outcrop Patterns
EXAM # 2	5-18-17	<i>Earthquake Country LA</i>
Structure/Earthquakes	5-23-17	Anticlines and Synclines
Earthquakes	5-25-17	Seismology, Magnitude
Plate Tectonics	5-30-17	Plate Tectonics
Deserts	6-1-17 <i>geo maps/seismo</i>	Deserts
EXAM # 3	6-6-17	<i>Shockwaves</i>
Mass Movements	6-8-17	<i>Riding the Storm or Mass Movements</i>
Streams	6-13-17	Streams
Groundwater	6-15-17	<i>Groundwater</i>
Glaciers	6-20-17 <i>features</i>	<i>Glaciers</i>
Coastal Processes	6-22-17	<i>Waves, Beaches and Coasts</i>
<u>FINAL EXAM</u>	6-27-17	6:15-7:45 p.m. Room S-15 BRING <u>TWO</u> SCANTRONS!

**FIELD TRIP SATURDAY,
June 3rd, 8:30a-2:30p**

* Boxes indicate lab quizzes

For the field trip bring: lunch, water, sunscreen or a hat, rain gear, sturdy comfortable shoes (it may be muddy), a pencil, eraser and a clipboard or something hard to write on.

Weather along the coast can be unpredictable. I suggest dressing in layers and having a small pack so you can peel off layers if necessary. **WE GO RAIN OR SHINE! NO SMOKING and NO GUESTS** allowed on field trips.

Please plan to be **at the site ready to work at 8:30am!**

LATE or NO SHOW = INCOMPLETE

There are **NO MAKEUPS OF ANY KIND** and **NO EXTRA CREDIT WORK**

Geology 10 Syllabus - De Anza College - John Cook - Spring 2017

More Attendance and General Guidelines

I will be taking attendance twice each night - before lecture and at the end of lab (from the seating chart).

If you are **late**, I keep track.

Please expect to stay for the entire time each class period (*except after you finish an exam).

If you leave early on a regular class day it will count as an absence and you will receive a zero.

For attendance/ lab points only (does not apply to exams or quizzes): If you must miss a class due to work or serious illness and you can provide me some form of OFFICIAL documentation, I will take that into consideration. Each instance will be treated on a case-by-case basis.

If you miss class, it is your responsibility to get the information from one of your classmates.

The material we cover during lab is fair game for quizzes and exams, and you will receive up to **4** points for completing each lab exercise. I circulate during lab to answer questions and observe your progress. I award points based on your efforts and progress. If you are not present at the end of the lab period or you forget your lab book, you will **lose 4** points.

I double the lab points on several unannounced nights to bring the total lab points to 100.

Lab quizzes will focus mainly on material we cover in lab but may include relevant conceptual material from lecture. Lab quiz #5 is a "features – style" format. It is an automatically timed powerpoint accompanied by multiple choice questions. Study guides for some of the quizzes are in the Course Reader.

Exams will be given the **2nd half of class**. This will allow you to leave after finishing the exam. PLEASE do so quietly, so you don't disturb students who are still working. DO NOT stand outside the door talking after you leave. If I have to come outside and speak to you – you'll **lose 10 points**. Keep scantrons FLAT – scantrons that won't run **lose 10 points**.

*Exams are timed – time limit is: Exam 1, 2 and 3 = 60 minutes, Final exam is 90 minutes

Well prepared students typically complete the exams in less than an hour.

Attention English learners – Dictionaries/ translational devices cannot be used for exams.

****Exam scores are posted via email. **I DO NOT RETURN EXAMS OR QUIZZES**.**

You must come to office hours to see graded work. I retain exams and quizzes until the end of the quarter.

Once the class ends, and course grades are posted, **I destroy your graded work**.

Labs: Please **DO NOT WORK AHEAD** in the lab book. We won't be doing every exercise, nor will we always do them in sequence. I may give a short introduction to explain what you need to do for some lab exercises. Working ahead may confuse you and/or leave you with nothing to do during the lab period.

Please don't ask to leave early if you are first to finish – work on study q's, read, study, etc...

Grades: I do not use the +/- grading system. Please notice that the standard grading scale has been adjusted to expand the range for a C. There will not be any curving of grades.

Email: You must have a valid email address to participate in the course.

I use email regularly to communicate with the class – please check it on a regular basis!

Field Trip Waiver of Liability

State law mandates ALL students participating in an off campus "field excursion" sign an appropriate waiver. As the fieldwork is a requirement of the curriculum, students who refuse to sign the waiver are opting out of the course and will be dis-enrolled.

Americans With Disabilities Act (ADA) Exemption from Field Work:

Students with physical limitations or other special needs that would preclude participation in fieldwork will be given an appropriate alternate assignment. Every reasonable accommodation will be provided so that all students can participate and benefit from the field experience. If you have questions or concerns regarding access and participation issues - please contact your instructor. This exemption only applies to students with documented disabilities that have been verified through the Disabled Students Program & Services Office at De Anza College.

Field Trip make ups: If you miss the field trip and have to take an incomplete for the course, you must make up the trip in the quarter immediately following the quarter of your original enrollment. Enrollment during Spring quarter means you must attend the make up trip during the Fall quarter. Failure to attend the make up trip will result in an F for the course regardless of your class average.

NO laptops, personal stereos, recording devices, games, entertainment or any internet devices during class time.

I have a TWO STRIKE POLICY on CELL PHONES, PAGERS and other electronic devices.

These devices **have no place in the classroom** and are not to be used **at any time, including break**.

Please **TURN THEM OFF** before entering the classroom. The two-strike rule also applies to behavior.

Failure to follow class rules **at all times** will result in expulsion from the class (**you'll be dropped!**)

THANK YOU! Consider downloading the free Pocket Points app (pocketpoints.com) to earn discounts with your phone!

Grade postings

I periodically send your scores in .pdf email attachments by the last 4 digits of your student i.d. #'s

NEVER tell another student your exact score for any assignment or test – you could compromise confidentiality.

Here is an email from one of my former students concerning how to look up your i.d. #

The ids used to be our social security numbers. Because of a new confidentiality law they were recently changed.

People can find out what their id numbers are by logging in to the online registration system.

On the "main menu" section there is a link that says "student id lookup" or something to that effect.

Academic Honesty: Students caught cheating or plagiarizing will receive a zero on the assignment, quiz or test and will have their name reported to the Dean of Students. Repeat offenders will be referred for disciplinary action.

Professor Cook's Study Strategies

Here are some Study Strategies I have found to be helpful for myself and my students:

- 1) Leave the original sheet of study questions blank.
- 2) Write the correct answers on a separate sheet of paper – now put the “key” away and don’t look at it unless you have to.
- 3) Use the blank questions to quiz yourself or have someone else quiz you. Every time you answer, **WRITE IT DOWN!**
- 4) Repeat the process until you don’t need the “key” anymore, and you can **WRITE** the answers without hesitation.
- 5) Move on to the next set of study questions until the answers to that set are automatic. Return periodically to previous question sets to make sure the answers still come without hesitation – **WRITE THE ANSWERS DOWN EVERY TIME!**

Try teaching the material to someone that is **not in the class** – draw pictures/diagrams - explain.

DO NOT write out the questions and answers in the same place and then just read them repeatedly – by doing this you are relying solely on your reading retention – a REALLY BAD IDEA – almost guaranteed to make you PERFORM POORLY!

For diagrams - make a copy of the original diagram and white out the labels on the copy. Cut out small pieces of paper and make labels that you can lay on the diagram like a puzzle.

Form a study group with other students who are committed to and serious about success – don’t let it turn into a social group!

Study in short bursts (studying to exhaustion only makes you tired!) – set aside a block of time each day – be consistent.

Don’t procrastinate.

Set a schedule and stick to it.

I recommend spending **a minimum** of one hour per day “drilling” yourself with the study questions (including weekends!).

Ask me questions during class if there are things you don’t understand.

Utilize office hours.

Don’t wait to get help.

Don’t fall behind.

Make school your first priority – treat it like a job!
