

De Anza College Cancelled Sections, Winter 2022

For winter 2022 quarter, De Anza College cancelled 140 sections due to low enrollments on two predetermined cancellation dates of 12/16/21 and 12/20/21, in addition to other dates in which classes were cancelled due to low enrollment. Of the cancelled sections, 133 had at least one enrollment. A total of 791 students (unduplicated headcount) were dropped. The students who were dropped from a low enrolled section were tracked to census day and 682 (86%) remained enrolled, for a loss of 109 students. Of those who were dropped, 236 (30%) re-enrolled in the same course but in a different section.

Cancellation Date	Cancelled Sections	Cancelled Headcount	Cancelled Enrollment	Cancelled FTEF
12.16.21	102	486	511	9.76
12.17.21	21	155	165	1.98
12.20.21	17	170	171	1.90
Total	140	811	847	13.63
	Post Cancellation Headcount	% Post Cancellation Headcount		
Enrolled by census in other courses	682	86%		
Enrolled by census in same course as dropped	236	30%		

Note: The unduplicated headcount of those dropped from low-enrolled sections is 791. The table provides headcount by cancellation date; and therefore, will reflect duplicated students as some students were dropped from more than one cancelled section.

Methodology: This report reflect cancellations from low-enrolled sections. Other sections were cancelled due to reasons such as new time/day or no instructor to teach the section, but are not included in this report. Registration data was retrieved from Student.Course.Reg.Audit. Students who were dropped from the low-enrolled sections were tracked to census enrollment (01.18.22) using frozen data from Registration.Analysis.Freeze. Scheduled instructional load was retrieved from Session.Analysis.

All cancelled sections by date and the enrollment and load when cancelled are displayed below.
