

## How to Access Historical Enrollment and Units by Residency Status

**Notes:** This report provides users with a report on students who are non-resident in each term and the total number of units enrolled. The data will be displayed at the end of each term. The report includes only students reported on the 320 report in which the district receives apportionment. Foothill apprenticeship courses are excluded.

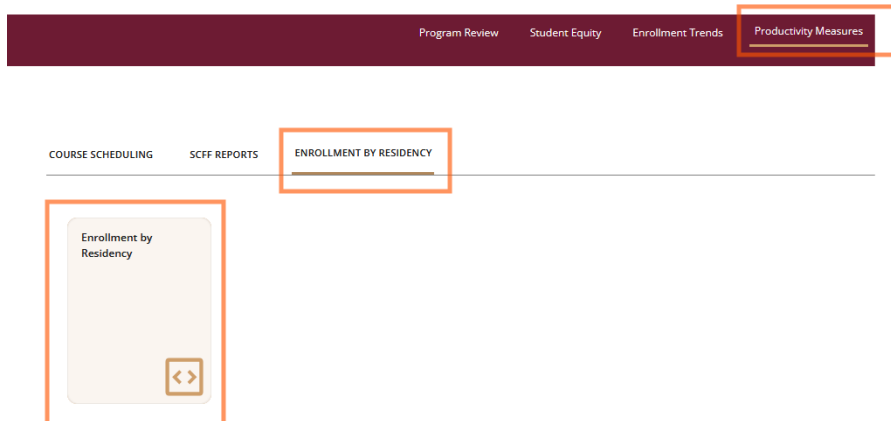

**Step 1:** In MyPortal, select the tile for Student Success Analytics

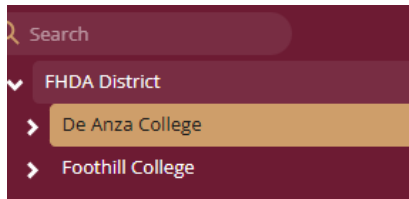

**Step 2:** Then select Precision Campus

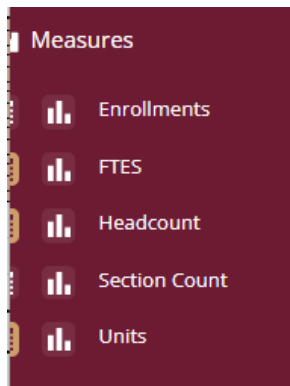

**Step 3:** Productivity Measures in the ribbon then select Enrollment by Residency and Enrollment by Residency tile.

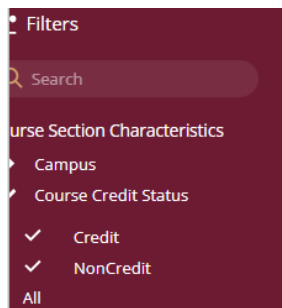

**Step 4:** Select a college or the district overall

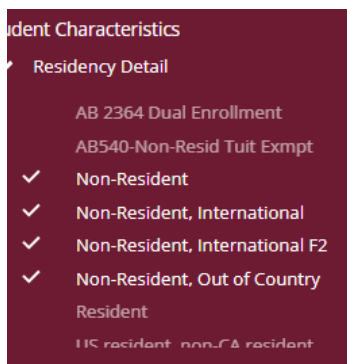

**Step 5:** Under 'Measures' select what you would like to display: FTES, Headcount and Units

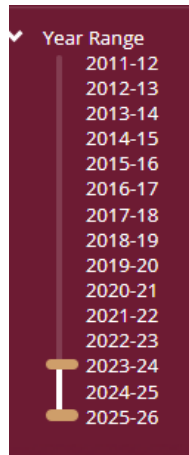

**Step 6:** Under Course Credit Status select both credit and noncredit sections.

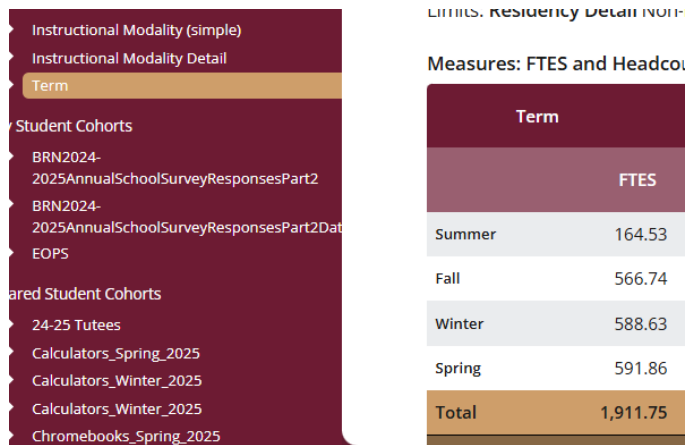

**Step 7:** Under Student Characteristics, select only: Non-resident, Non-Resident, International, Non-Resident International F2 and Non-Resident, Out of Country

**Step 8:** Under Year Range, select the years you would like to display

**Step 9:** Under Term, click on the word, Term, to add it to the display.

**Step 10:** The display will now show FTES, Headcount and Units for the four non-resident groups selected. In this example, the district is selected.
